## Programming & Record/Playback Features

### Hi-Fi Stereo Sound with Built-In MTS/SAP Decoder

Record stereo videotapes from stereo sound sources and playback pre-recorded hi-fi stereo tapes in hi-fi stereo sound—with an excellent 90dB+ dynamic range—through a stereo-equipped TV or regular TV and stereo hi-fi home audio system. The built-in MTS/SAP decoder allows reception and recording of off-air television stereo broadcasts and second audio program transmissions, where available. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

### VCR Plus+™ Programming

Simplifies VCR programming by allowing you to simply enter PlusCode® programming numbers found in many published television listings. When recording begins, your VCR automatically selects the proper TV channel and program length. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

### One-Touch Record

Record up to 8 hours or to the end of the tape with the touch of a single button. Each touch of the OTR button adds 30 minutes of additional recording time.

### 8-Event/1-Year Smart Programming

#### Remote Control Onscreen Menu Programming

## Picture

### SQPBS (S-VHS Quasi-Playback)

A revolutionary video playback technology that allows you to watch videotapes recorded in the S-VHS (Super-VHS) mode. Now you too can enjoy the videos that your Uncle made at the last family reunion without buying expensive S-VHS equipment.

### Incredible Picture™

For picture detail that's so real, you'll think you're a member of the cast! The menu-selectable Incredible Picture settings boost picture detail beyond average, all the way to incredible! Choose from NORMAL, VIDEO ENHANCER, or INCREDIBLE PICTURE modes.

### 4-Head, Double Azimuth Design

Combines direct drive cylinder and capstan motors with precision digital servo control to produce excellent special effects reproduction—Still, Slow, and with the appropriate remote control, Frame Advance, Variable Slow Motion and x2 Play—in both SP and SLP speeds.

### 19 Micron Head

#### Digital Auto Tracking System Auto Head Cleaner

## Convenience

### SmartClock™

This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their CATV service provider.

### Daylight Savings Time Adjustment

This menu-driven feature automatically compensates for Daylight Savings Time changes in early April and late October so you don't have to reset the clock twice a year. Simply activate the Daylight Savings Time option in the Set Clock menu and forget it!

\* SmartClock and Incredible Picture are trademarks of Philips Consumer Electronics.  
VCR Plus+ and PlusCode are trademarks of Gemstar Development Corporation. The VCR Plus+ system is manufactured under license from Gemstar Development Corp.

### Automatic Channel Setup

The VCR tuner scans through television frequencies, automatically storing active broadcast channel into memory. Then, only active channels programmed into memory are tuned using the CHANNEL ▲ ▼ buttons on either the remote or front panel of the VCR. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added or deleted.

### Front Panel Audio/Video Inputs

Provide added convenience to the user when recording tapes directly from a camcorder to the VCR. In addition, accessory video equipment such as a video game or Web browser can be connected for direct playthrough to the TV set.

### 181-Channel FS Tuning

### Clock/Function Display

### Trilingual (English/Spanish/French) Onscreen Function Display

### Onscreen Real-Time Counter

### Timer/Programmer Back-up System

### Repeat Play

### Quick Start Mechanism

### Audio/Video Input/Output Jacks

## Special Effects

### Variable Slow Motion

View SP or SLP video recordings in slow motion in both forward and reverse modes. Slow motion speed can be adjusted from 1/5th to 1/60th normal speed in either direction.

### 21x Forward/Reverse Latching Search

Search in forward or reverse mode at 21 times normal playing speed in SLP, and 7 times normal in SP. The Latching Search feature provides continuous forward or reverse search with a single touch of the control. A second touch stops the search operation and returns the unit to the Play mode.

### Skip Search

### x2 Play

### Index Search

## Remote Control

### Universal Lighted Remote

## Full Auto-Feature Package

- Power On
- Digital Auto Tracking
- Auto Play
- Auto Repeat
- Auto Rewind
- Auto Eject
